

## PRESS RELEASE

September 12th, 2017

### **ATV strategic partner MPS sets-up a demo center in Suzhou China**

***ATV Technologie, an international player in the field of microelectronics, is pleased to announce that due to continued international growth, the company and its Partner MPS have opened a new demonstration center in Suzhou China.***

The new demonstration center is being operated in conjunction with MPS, a well-known Manufacturer's representative company, specializing in sales, service and customer support for the back-end electronic packages and materials.

"With this service center MPS can even better service our extensive customer base as well as new customers" insured Mr. James Wang, CEO of MPS.

"ATV has stepped up its presence in China as well for the total Asian market to include full customer service, technical support, as well as training and installation assistance" added Bert van Weelde, Sales Director of ATV Technologie.

He is pleased to note that the demo center will bring many benefits for the customer, such as:

- Customer support in general
- Improvement of process optimization
- Test capabilities and service support
- Decreased response time due to optimized problem simulation capabilities
- Training center for the whole Asian market

#### **About ATV Technologie GmbH:**

*Founded in 1982 ATV Technologie GmbH is an international player in the field of microelectronics focusing on manufacturing and distribution of vacuum reflow soldering and processing ovens. With an expert team of engineers and physicists rooted in precision mechanics, electrical and mechanical engineering. ATV Technologie GmbH designs and develops a product range at the highest level of quality. Universities, institutes, laboratories and leading production companies worldwide appreciate our flexible and customized solutions.*

#### **About MPS:**

*The MPS was established in Beijing in 2001. The business activities are to provide service in semiconductor, SMT and electronic packaging for the mainland China and Taiwanese markets. From 2002 on, MPS expand continuously in Shanghai, Suzhou, Shenzhen, Chengdu, Xian, Wuhan and Yantai for sales, service and technical support.*
